

Tasks for Tree of Life

=====

1. Please navigate to the root of the Bear (Ursidae) subtree.
2. Find the node corresponding to the Brown Bear and read the first paragraph of the corresponding wikipedia entry.
3. Would you say there are more species (sub-nodes) of Bear (Ursidae) or more of Dog (Canidae)?
4. Which species is more closely related to Whales (Baleen) according to this visualisation: Alpacas (*Vicugna pacos*) or Elephants (Elephantidae)?
5. Find the two black Howler Monkey nodes within the Primate tree.
